- 2) shape
- 3) form
- 4) texture
- 5) space

Art Principles to

Show:

- 1) Pattern
- 2) Contrast
- 3) Movement
- 4) Balance

In the box above, you are to add the photograph of your art element and principle exploration exercise. Once you have added it, use PDF Expert to label with drawn lines and typing text as to what elements and/or principles you were representing/displaying and specifically where/how. This is to see if you actually know what and how to use the elements and principles verses just listing them off.

Worth 5 points, turn into Showbie.
